

FEATURES & FUNCTIONS

The Operating System for martial arts schools

Built by martial artists, for martial artists.

Everything it takes to run your school
in one place, under your brand.

APP.NMAO.US

A NOTE FROM TEACHER TO TEACHER

Hello fellow Martial Artists, my name is Brad Lemley and I have owned and operated martial arts schools for the past twenty years. For most of them, I ran on software that treated the heart of our craft — curriculum, belt promotions, attendance tracking — as an afterthought, an add-on bolted onto tools built for somebody else's business.

I'm a lifelong practitioner and a former fighter, so I know exactly where I should be: on the mat, with my students, helping them grow the way my instructors did for me. Instead, year after year, I lost time wrestling with software that was never quite built for what we actually do.

The martial arts have defined my life and given me almost everything in it. Now it's time to give back to the community that gave me so much. *This operating system is for us* — the dedicated martial artist working to transform and empower people to become their best selves through the arts. Set it and forget it: let the system handle the back-end work while you do the most important work of all — changing lives.

Thank you for taking the time to read this. It is my hope that this operating system helps you — the school owner, the lifelong practitioner — do more of what you love: teach and train.

— Master Brad Lemley

FOUNDER, NMAO

WHY NMAO

Four reasons owners make the switch.

Built for martial artists

Belts, ranks, and curriculum — native, not bolted on.

All-in-one

Members, billing, the floor, retail, events, messaging.

Your brand everywhere

Your colors and logo, front to back. They see you.

Half the price

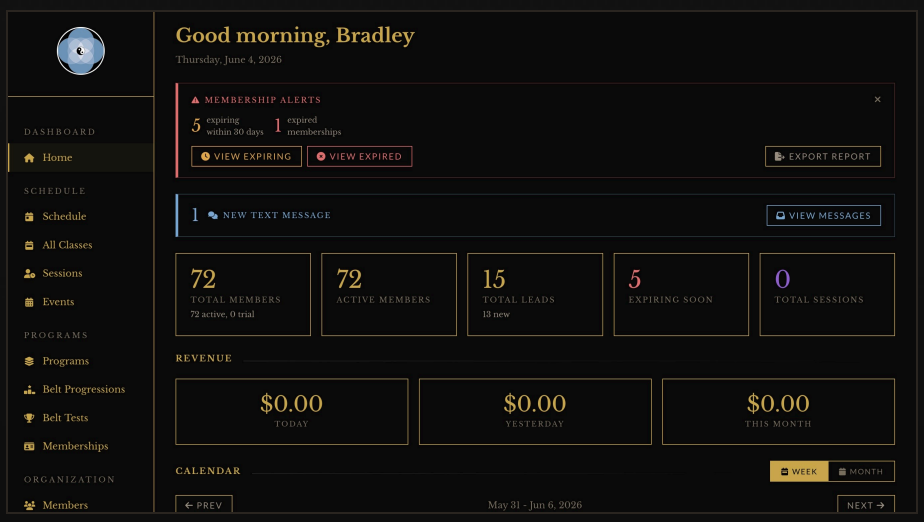

A complete operating system for about half what Mindbody, Zen Planner, or Pike13 charge.

THE COMMAND CENTER

One screen to run your *whole school*.

- Members, billing, attendance, retail, events, and messaging — **one login**, instead of juggling five separate tools.
- See today at a glance: who's active, who's expiring, today's revenue, upcoming tests and birthdays.
- Every tile is tappable — drill straight into the people behind the numbers.

The staff dashboard

Your whole school at a glance — the moment you log in

BELTS & RANKS, NATIVE

Built for martial artists, not a *generic gym app*.

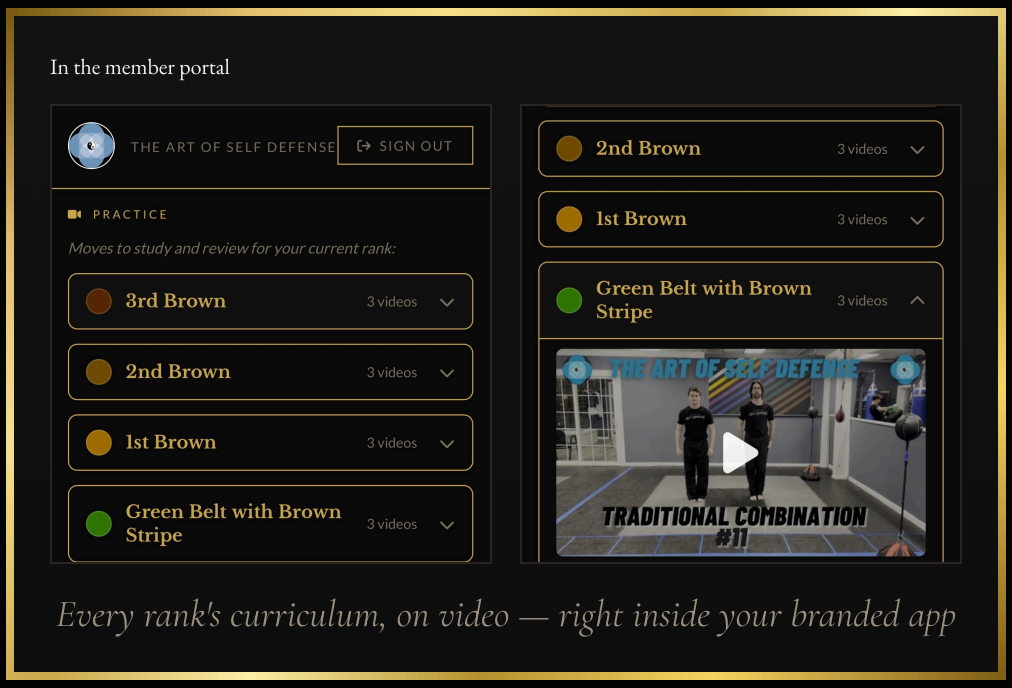

- Schedule a belt test and the smart picker sorts students by who's **eligible**, based on attendance.
- Promote a student and their belt and curriculum update automatically in their portal.
- Record pass/hold results, collect test fees, and track every rank — all in one place.
- Attendance is a **guardrail, not the whole story** — it flags who may be ready, so no student slips through the cracks in a school of hundreds.

VIDEO CURRICULUM

Your curriculum, *in a click*.

- **Boost engagement** — your full curriculum at a glance, right inside each student's member portal.
- Drives YouTube engagement and cuts the need to re-teach the same material over and over.
- **Multi-curriculum flow** — kids and adults, BJJ and Karate, all handled with ease.

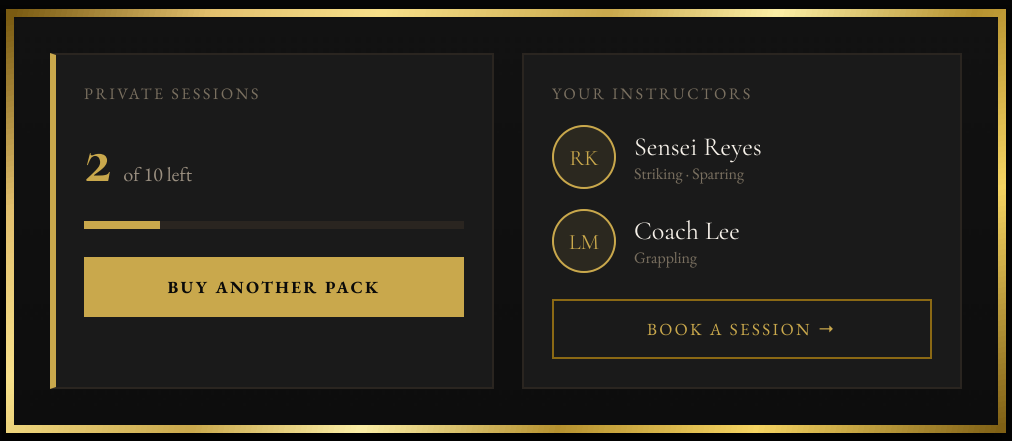

Every rank's curriculum, on video — right inside your branded app

SELF-SERVE BOOKING

Members buy and book on *their own*.

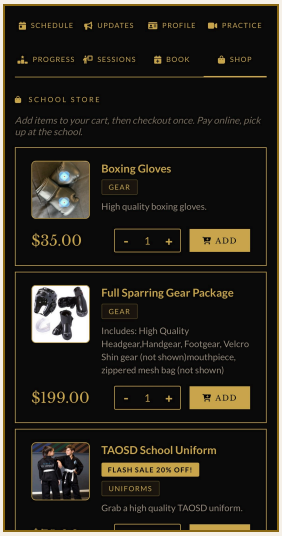

- Out of private sessions? Members see what's left and buy another pack on the spot — **no extra effort needed**.
- Automatic reminders let students know when they're running low and suggest a top-up.
- Students tap straight through to a live booking calendar and choose which instructor to work with.
- Instructors get an update text the moment a session is booked — who, what date, and what time.
- Optional confirmation texts help cut down on no-shows.
- Custom booking calendars available for each instructor.

RETAIL

Your pro shop, in *their pocket*.

- Members browse your gear, add to a cart, and check out in one tap — then grab it at the desk.
- **Merchandising badges** — flag items as Clearance, On Sale, or New to spark quick, impulse sales in the portal.
- Real inventory tracking means you never oversell the last size-4 gi.
- Every order drops into a fulfillment queue — mark it handed-off with one tap.

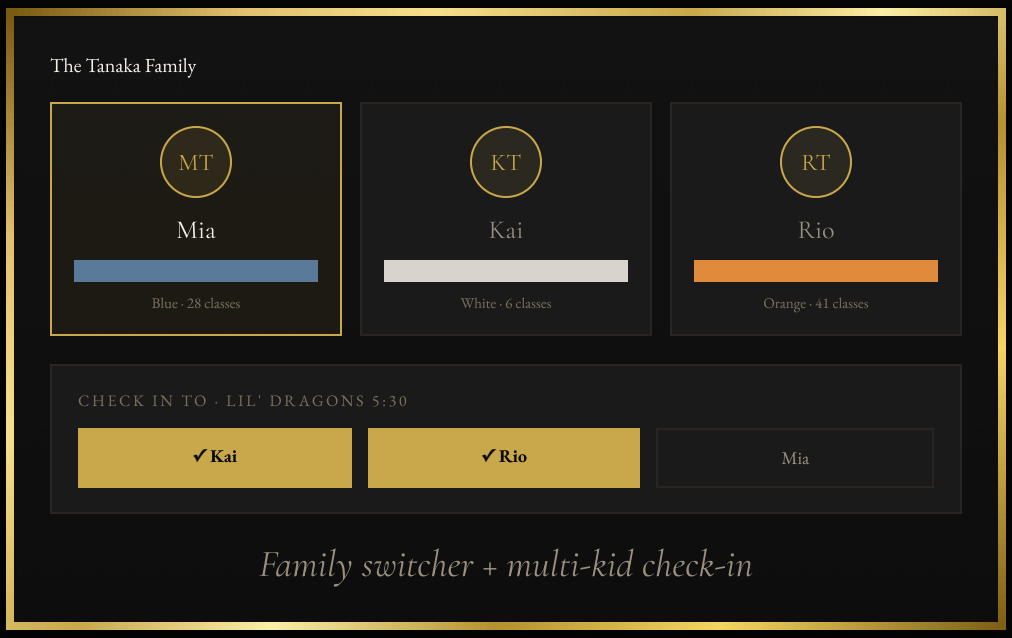

Your branded School Store — members shop and check out in a tap

FAMILY ACCOUNTS

One login for the *whole family*.

- Parents switch between kids and see each child's belt progress and class count, from one account.
- Check multiple kids into tonight's class in a few taps.
- The experience busy martial-arts families actually want — not five separate logins.

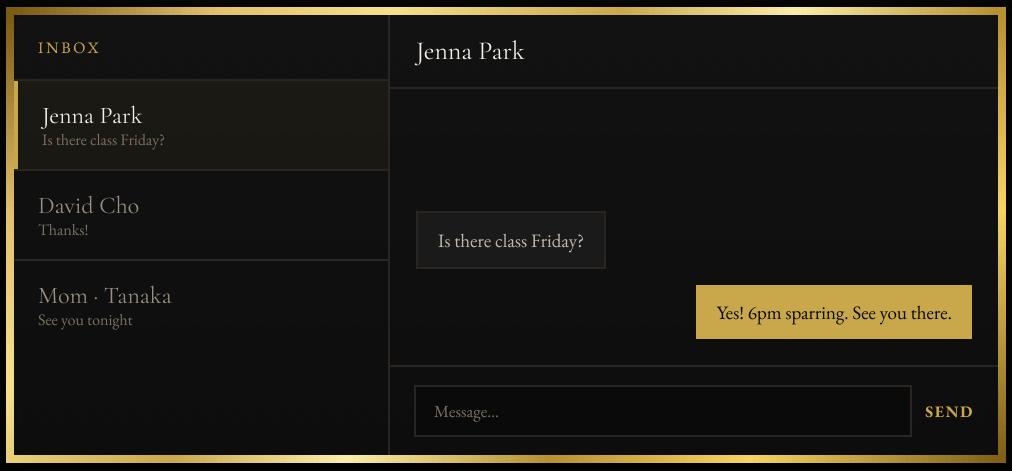

Family switcher + multi-kid check-in

MESSAGING

All your communication in *one platform*.

- **Instant alerts** — new messages surface on your dashboard the moment they land, and forward straight to your phone so you can reply on the spot.
- Reply in one tap and it goes back out through **your school's number** — a real two-pane inbox, updating live.
- **Automatic reminders** fire on their own: failed payments, expiring cards, birthdays, missed sessions, and more.

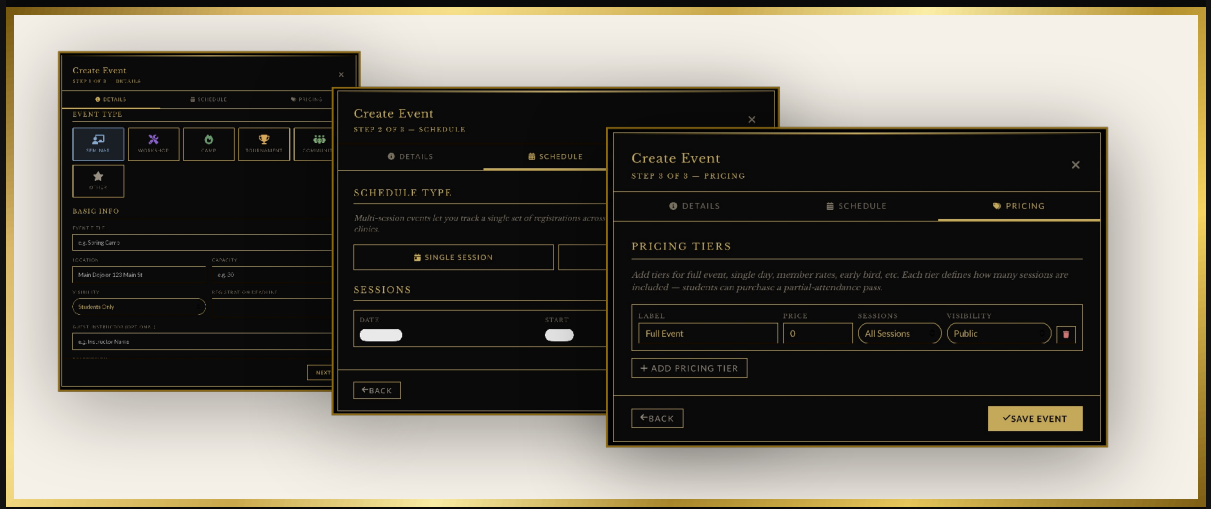

Alerts, automations, and a live SMS inbox — your school's whole conversation in one place

EVENTS

Easily create and share your *events*.

- Build a seminar, camp, or tournament in a few easy steps — single day or multi-session.
- Price it your way in one registration: full event, single day, member rate, early-bird.
- Drop the signup into a portal alert banner and students register themselves — or register and charge someone yourself.

Browse all your events at a glance — then build a new one in three guided steps

THE KIOSK

Milestone *celebrations*.

- Hit 10, 100, even 1,000 classes and the kiosk celebrates it on the spot — a moment the whole floor sees.
- Public recognition that keeps students motivated and coming back.
- Set your messages once; they appear automatically at check-in.

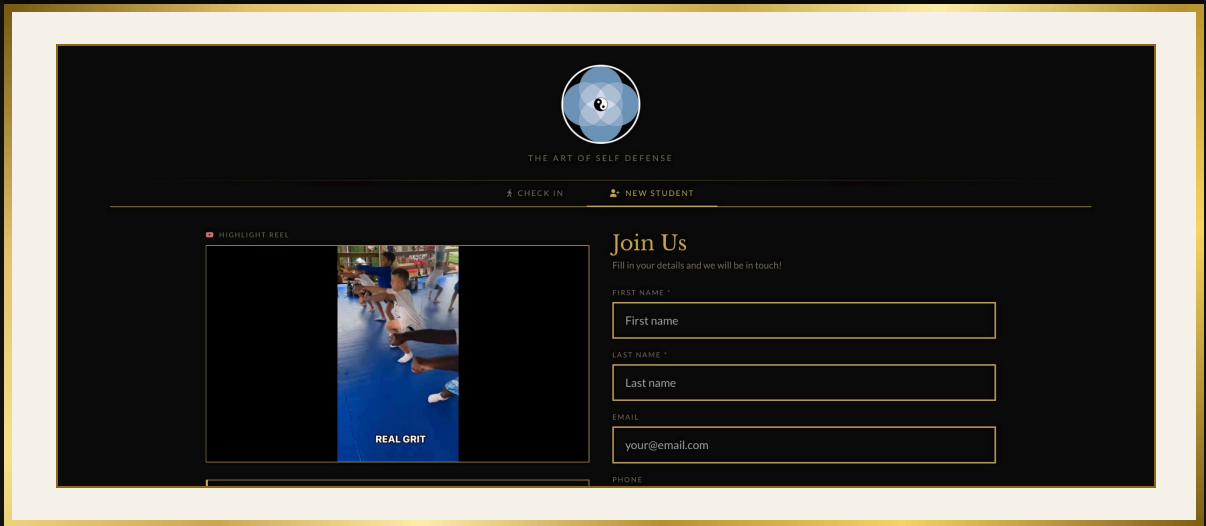

The check-in kiosk celebrates the moment — on the spot

GROW YOUR SCHOOL

Turn your front desk into a *lead machine*.

- The same tablet members tap to check in travels with you — to a seminar, a demo, a community event — and works the crowd for you.
- Your **highlight reel** plays on a loop, so the energy of your school is the first thing a prospect sees.
- Customizable school stats run alongside it — the numbers that build instant credibility, front and center.
- A built-in sign-up field captures hot prospects on the spot, then **auto-emails** them how to book a trial — so no lead ever gets forgotten.

The kiosk's New Student mode — highlight reel, stats, and sign-up in one

WHITE-LABEL

Your brand, *everywhere*.

- Your colors, logo, and fonts across the entire platform — portal, kiosk, emails, public pages.
- Save up to three palettes (everyday, seasonal, tournament) and reskin the whole app with one tap.
- **Change it anytime** — update and save your brand colors right from the Settings tab on the sidebar.
- Members never see "NMAO" — **they see your school**.

One product, three saved palettes — reskin the whole platform in a tap

QR CODES

Share with *a scan*.

Codes for memberships, events & retail — generated with a click.

- Every event, product, and membership gets its own QR code — **generated automatically** the moment you create it.
- Print it on a flyer, post it by the mats, or project it at a seminar — one scan opens your fully branded page.
- Prospects register, buy, or join on the spot — no app to download, no account to set up first.
- The same codes power your public event pages, pro shop, and membership signups — one system, everywhere you share.

EVENT
Summer Camp

RETAIL
Sparring Gear

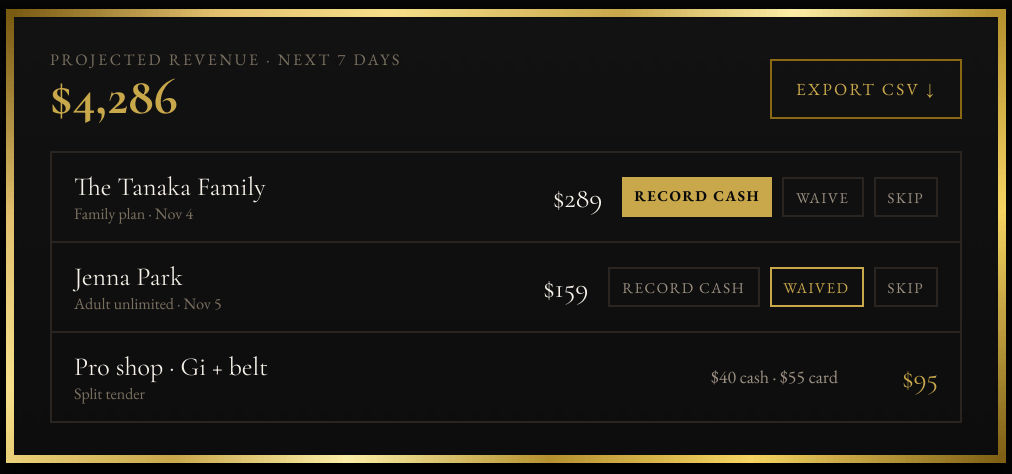

MEMBERSHIP
Adult Program

One code each — for events, retail, and memberships

FLEXIBLE BILLING

Billing that bends. Books that *balance*.

- Comp a month, waive the next bill, or issue a credit — **in a tap**.
- Multiple cards per family — a primary for dues, another for incidentals.
- **Split-tender** — part cash, part card on one sale.
- Projected revenue shows what's coming — record cash, waive, or skip any upcoming bill.
- **Books-ready** — one-tap Payments → CSV export for QuickBooks or Excel, any date range.

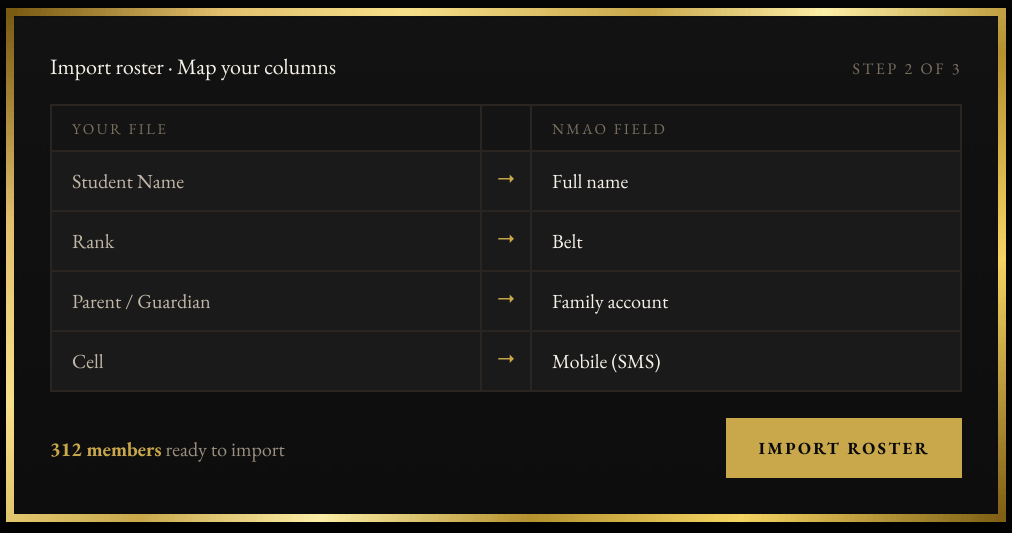

Every upcoming bill, handled your way — then exported for your books

PAINLESS SWITCHING

Make the switch without the *headache*.

- **We import your existing roster** — no retyping hundreds of students.
- Guided onboarding walks you through it, step by step.
- Column mapping matches your old spreadsheet to NMAO — names, belts, families, phone numbers.
- Pair it with 90 days free and move over at your own pace.

Bring your whole school with you

NMAO ACCREDITATION

More than a discount. A mark of *standing*.

- Earn the **NMAO-Accredited seal** and certificate for your school.
- A public verify-a-school page, where members can confirm your status.
- Your **$99/month is fully waived** — $0/mo for as long as you stay accredited.
- A larger cut back from the league.

Start your accreditation at NMAO.US

TRANSPARENT PRICING

Every feature included.
No surprises.

MONTHLY MEMBERSHIP

$99 / month

NMAO-accredited schools pay **$0/month** — the $99 is fully waived while you stay accredited.

PLATFORM FEE

1%

On payments processed through NMAO — capped at $200 / month.
